The second Annual Congress of the Emirates Green Building Council (EmiratesGBC), an independent forum aimed at conserving the environment by strengthening and promoting green building practices, concluded with industry stakeholders across the construction supply chain resolving to work together and take concerted efforts to promote sustainable built environments in the region.

The winners of the inaugural EmiratesGBC Awards were honoured at a ceremony for their contributions to promoting sustainable built environments. The winners of the Paper Presentation competition and an inter-school debate competition were also announced.

The inaugural Emirates-GBC Award winners:

- Best Carbon Saving/Reduction Programme of the Year: Emirates Energy Star Project by Pacific Control Systems
- Green Building System Award: Cemex with Royal City Contracting for Hawk Freight Services
- Green Building Material/Product Award: SGL Group for Ecophit Radiant Ceiling
- Green Building Research Award: MAPEI
- Best Training Initiative of the Year Award: Unibeton Ready Mix
